"Tried to make a cinematic tribute to the ones lost during pandemic"

Introduction

I love watching movies and my interest in cinema isn't limited to consumption. I also want to make it. I have a

great interest and ambition to make a great piece of cinema. I had been making stories since I was a child but now I can see how making a story and capturing it on screen is a whole different thing. Anyway, let's talk about it below, but boom! here is the first film made by me:-

Remembering The Ones Lost | Short Film |

Why Did I make it?

I believe sometimes the answer for whys is one's satisfaction rather than his/her interest for profit of any kind. And the same has been done for me in this work. I

don't know exactly the one reason behind it but as I follow my interest through my blog. I had been wanting to make a film that holds meaning and lessons for its audience. Before thinking about this or to say **I didn't think it would work out this way.** I had many stories for films but in this film, I created one that could be done just by me. And then the story banged.

Theme

I am shocked about how the world moves on. A few years ago back a pandemic almost threatened the future of human beings. And ended the lives of many loved ones but now I feel all of that is lost in the midst of the busy life and discipline of life.

But I can still smell the fear then and the hard work the helpers did. I still remember hearing the deaths of thousands and sadly being habitual to it.

The number of griefs unheard and the lives taken are still unaccountable. We don't know how many lives were re-shaped and that's why I want to take a moment for the sorrows and smiles lost in my film. Remembering isn't bad and people need to realize it.

"Fine day. I went back to the moments and the second where my whole life flips. Moment when I

resonate with the thousands grieving. looking back to the pandemic and remembering the ones lost. The breaths stopped and smiles gone!"

Work Behind

Collection of all the
videos recorded for
making this short film

Will I made it with Iphone 6 and all by myself. I am not saying this for showing how wonderful this film is which I know that it isn't perfect but it isn't bad enough for be to be ashamed off. I had invest my time in it and I am happy for it. It was saturday and a good one for me. So as I had heard that **If you want to make movies grab whatever you have and start recording and so is what I did.**

Conclusion

Nothing much just asking you all to watch it, feel it, and remember the ones lost and the **lessons taught by the pandemic**
