## Introduction

Palm Springs (2020) is a film containing a heartfelt comical relief. It received critical acclaim for this story and cast performances. It stars Andy Samberg (also the producer), Cristin Milioti and J. K. Simmons. I watched it as a day starter and I enjoyed it a lot.

## Review

"Palm Springs" (named after the film's primary setting) turned out to be a really fun movie for me! It starts off with the vibe of a hard, toxic, or dysfunctional love story. I haven't seen many of Andy Samberg's films, but I previously had the impression of him as a comedy actor. I was genuinely impressed by his portrayal as a fun protagonist.

The movie begins on a light note, but Samberg's character does seem a little off at first. As I watched his interactions with Cristin Milioti's character, I experienced some genuine shock moments as an audience member. As the story progresses, it keeps delivering new surprises and a rollercoaster of plot twists while never losing its comedic touch.

While I did feel a slight dip in excitement (very, very mildly) at times, as the film followed a plot structure I'm quite familiar with, it still managed to engage me. The climax followed a typical approach, prioritizing comedy as its main strength, yet it consistently maintained a fun vibe throughout. Additionally, the film included a heavy message about love and self-exploration and growth.

## Conclusion

In conclusion, "Palm Springs" turned out to be a delightful experience. It features funny and interesting dialogues, along with impactful performances from its cast. With a relatively short runtime, it tells a heartfelt story that leaves the audience smiling. I recommend giving it a try if you're looking for a fun, light-hearted, and refreshing take on rom-coms. Of course, the final call is always yours!
