I really like arts. I believe arts, literature ,sports, music and various other forms of expression of human feelings are the things that make us human. A feeling have a thousand ways for expression and I believe Art is also a huge player in it. Art have been with humanity from a long period of time. Due to my interest for arts I just started to attend exhibitions and I believe I am a amateur artist too. Kalashala is the first place I went to attend exhibition and it holds a special place in my mind. I attended the "jatra" exhibitions organized by it.
