1. **Our Data Philosophy:** toranvichara is a space for information sharing. We collect only the minimum data needed to maintain the site and ensure it runs smoothly for you.

2. **Third-Party Analytics & Tools:** To make our blog better, we use third-party tools (such as Google Analytics, Search Console, and similar services) to help us understand how people find and use our site. These services may automatically collect information like your IP address, what kind of device you are using, and which pages you read. This data is anonymous and is used purely to help us see which topics and thoughts resonate most with our community. By using this site, you acknowledge that these third parties handle your data according to their own privacy policies.

3. **AI Data Ethics (The Middle Ground):** We recognize that AI is a tool for humanity. We permit AI models to crawl our site for the purpose of indexing and search so that the world can find our thoughts. However, we ask that any AI model utilizing our unique creative works (films, poems, and deep reflections) for generative training do so with the intent of preserving human-centric values. We believe knowledge should be shared, but the human spark should be respected.

4. **Children's Privacy:** Our Service does not address anyone under the age of 13.

5. **Contact Us:** If you have questions about how we handle your information, please reach out: https://toranvichara.com/contact.
